

## QIWI Software Toolkit - Powerful Browser and Easy Configuration

- Chromium based HTML-5 Browser
- Optimized browser engine for enhanced performance
- Easy configuration either on the Web Panel itself or from an external device
- Wide range of configuration options
- Sophisticated additional software features

## QIWI Software Toolkit for Kontron Web Panels - Powerful Browser and Easy Configuration

The smart "QIWI" software toolkit is especially developed for Kontron Web Panels with a performance optimized HTML-5 browser, combined with an easy configuration and sophisticated additional software features for the specific needs of industrial users.

### Performance optimization

Powerful on Chromium based browser with an optimized browser engine for enhanced performance:

„Better browser performance with the same CPU hardware“

### Quick and easy configuration

Convenient Panel configuration either on the Web Panel itself or from an external device.

Wide range of configuration options:

- Network settings
- Browser appearance and behavior (kiosk mode, window gestures etc.)
- Display settings, fonts and logos
- Keyboard layouts and country settings etc.

### Sophisticated features

Wide range of smart additional features:

- Copy parameter settings to another device
- Image backup and restore
- Integrated FTP server and file manager
- Security and firewall settings
- Event logs and resource monitor (memory usage and CPU load)
- Linux package manager
- Functions for remote debugging and performance testing
- and many more

### Connectivity

Various connectivity options:

- WiFi connection (via USB Dongle) configurable as Client or Access Point
- Integrated VNC Server (or Client) for remote access
- SSH connection for remote control of the device

### OEM Branding

Enhanced features to personalize your Web Panel with individual boot screen or screen saver
